

Housing and Homelessness...

What can I do?

Challenge the Stereotypes

People from all walks of life access community housing. Learn more about the different types of community housing and challenge the thinking around this.

Housing Services

Get to know more about your local housing and homelessness services and systems. Learn about their programs and what they offer to the community.

Volunteer

After learning more about housing or homelessness services in your area, do some research into how you can assist and support them. Start by volunteering.

Donate

After learning more about housing or homelessness services near you, look into donating much needed items, donating financially, or donating your time through volunteering.

Join a campaign

Research local campaigns around housing and homelessness - such as Centacare Evolve Housing's YIMBY (yes in my backyard) campaign. Spread the word and share!

Spread the word

After learning more about housing and homelessness in your area, share this information with your friends, family, colleagues, peers... anyone!
